About Us

TransformUK was birthed from a local East London church, Shoreditch Tabernacle Baptist Church (STBC). TransformShoreditch is the pilot project of TransformUK and is a partnership between STBC and TransformUK. The project serves the community of East London by delivering a range of projects for families, those who are vulnerable and young people.

We are motivated by following the example Jesus gave us to love our neighbours and serve the poor and needy in our society. We look to demonstrate Gods love in real, practical, transformational ways. We do this using an inclusive approach with anyone being able to join the movement to bring about transformational love from any faith background or none. We do not deliver religious programmes, we simply demonstrate love in ways that actually make a difference; excellent programmes delivered by exceptional staff!

We believe that love can transform every individual and the communities they are in, no matter what circumstances and challenges they face. We call this 'Transformational Love'. We have established the following programmes to tackle disadvantage and disengagement so that every individual can experience genuine love and real positive change to their life circumstances and we have seen incredible examples of this in the last few years.

TransformCommunities; a range of community projects responding to local need in partnership with local churches - tackling poverty at the grassroots.

TransformEducation; high quality alternative provision and interventions - improving life chances for the most disengaged

TransformEnterprises; establishing local community enterprises & international partnership projects - creating real employment opportunities

TransformShoreditch is in an exciting time of growth, in fact, we often are due to the fast paced and ever changing nature of how we work! With our education programmes for some of the most disengaged and disadvantaged students in East London our ever growing youth club provision, our

new music studio, projects for those who are homeless, vision to develop new initiatives and our awesome space we are now in need of a fantastic person to help organise us! We have secured various contracts and funding which require support with monitoring and reporting and we are keen to release capacity of our delivery team by improving the administration support.

All of our programmes aim to raise emotional and social intelligence and, where appropriate, are underpinned by our Character Education Framework which aims to develop the below Character Strengths. We encourage our staff, volunteers and all project participants to develop in these behaviours and attitudes and to not only own any past struggles or adversity but use these to propel their future success!
